

INSULATED CASE CIRCUIT BREAKER LIFE EXTENSION SERVICES

WE HAVE SOLUTIONS FOR THE FOLLOWING BRANDS:

- ABB
- Boltswitch
- Federal Pacific
- General Electric
- Merlin Gerin
- Pringle
- Siemens/ITE
- Square D
- Westinghouse/Cutler Hammer/Eaton

WE PROVIDE CUSTOM ENGINEERED SOLUTIONS

Advanced Electrical & Motor Controls specializes in Life Extension programs for Insulated Case Circuit Breakers. We incorporate new modern components and provide new replacement equipment; extending the life and modernizing the performance of your equipment. Our goal is to keep your electrical equipment technology current with minimal downtime.

Additionally, we can provide a retrofit replacement for Bolted Pressure Switches, reducing the Incident Energy Level, improving your Arc Flash Calculations. Our staff can provide a recommended retrofit unit that will adapt into the existing switchboard with minimal modifications to the existing switchboard. The Retrofit Kit is supplied with detailed instructions, drawings, and hardware required for field installation.

WE STOCK A COMPLETE INVENTORY OF REPLACEMENT PARTS INCLUDING:

- Electric Charging Motors
- Shunt Trips
- Close Coils
- Primary & Secondary Disconnects
- Live Parts, Arc Chutes, Current Transformers
- Trip Units
