

CUSTOM-ENGINEERED RETROFIT SOLUTIONS

Advanced Electrical & Motor Controls (AEAMC) specializes in life-extension programs for bolted pressure switches. Our team retrofits modern, current-series circuit breakers—such as the Square D MTZ, Eaton MDS, ABB Emax, and GE Power Break II—to replace aging bolted pressure switches.

These retrofits not only enhance system reliability but also help reduce incident energy levels, improving electrical safety for your personnel. Remote operation and advanced communication capabilities can also be integrated into the solution.

Retrofit

LET'S BUILD A SAFER, SMARTER SYSTEM

Our engineering team recommends a tailored retrofill solution designed to fit your existing switchboard with minimal modification. Each kit includes all necessary drawings, instructions, and hardware for efficient field installation.

In partnership with CBS Field Services—a NETA-accredited testing company—AEAMC offers complete turnkey retrofit solutions. From outage coordination to installation and testing, our experienced team manages every step of the process.

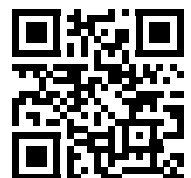

At AEAMC, we are committed to delivering innovative, cost-effective solutions that extend equipment life and maximize safety. In a globally competitive market, we help our customers meet their goals with high-quality solutions at a great value.

Contact us today to discuss your retrofit needs.

ONE GROUP WITH ONE GOAL

TO PROVIDE COMPLETE ELECTRIC POWER SYSTEM LIFE CYCLE SOLUTIONS

Shop and Engineering Services

- Electrical Equipment Repair
- Remanufacturing & Reconditioning
- Testing Services

Emergency Restoration Services

- 24/7/365 After-Hours Support
- Nationwide On-Site Emergency Services
- Self-Contained Portable Workshops

Unmatched Parts Inventory

- Renewal and Replacement Parts
- Millions of Parts in Stock
- Vacuum Interrupter Replacements

Electrical Apparatus in Stock

- Largest Inventory of Power Distribution Equipment
- New, Surplus & Remanufactured Apparatus

Custom Electrical Safety Solutions

- Arc Flash Injury Avoidance
- Remote Racking Systems
- Chicken Switch Remote Switching

NETA-Certified Field Services

- Maintenance & Acceptance Testing
- Electrical Testing & Commissioning
- Power System Studies

FIND A GROUP CBS COMPANY NEAR YOU

Group CBS has global subsidiaries offering products and services for the low-, medium-, and high-voltage industrial, utility, electrical distribution, and repair markets.
